

Gorge Technology Alliance e-newsletter

December 2006

In this issue:

- 1) New website developer
 - 2) Update your member profile
 - 3) GTA "In the News"
 - 4) Survey Reminder
 - 5) Engineer Luncheon series
 - 6) Next Meeting January 23rd.
-

New website developer (www.crgta.org)

We are happy to announce that Betsy Frazier, a fellow GTA member, will be working with the web committee to update the GTA website. Check back frequently to see the progress we are making! You'll soon see a new, more interactive homepage, and easier format for becoming a member and entering member business information to the website.

Update your member profile

If you are a GTA member, remember to enter your business profile into the GTA website. You can do this at: http://www.crgta.org/member_reg.cfm. If your profile needs an update, please contact Amanda Remington at amanda@crgta.org to make necessary changes. Not yet a member? Email amanda@crgta.org to learn more about joining the GTA.

GTA "In the News"

Interested in how the GTA is creating connections between technology businesses in the Gorge? Read "In the News" at: <http://www.crgta.org>.

Survey Reminder

Remember to complete the GTA survey to let us know how we can increase value for you as a member. The survey can be accessed at: <http://www.surveymonkey.com/s.asp?u=583702794017>.

Engineer Luncheon Series

One of the ideas brought up last month was a proposal to begin an engineer luncheon series.

Are you interested in taking part? If so, please contact Amanda at amanda@crgta.org.
The

luncheon series would entail detailed technical discussions a few times a month, switching between technology areas. It would involve presentations by participants about a product design or a technology they think would interest the group, followed by some time for questions.

Next Meeting

Mark your calendars for the next GTA meeting on Tuesday, January 23, 2007. Networking starts at 6:30 p.m. followed by a short business meeting. The speaker will be Craig Sabina with Summit Projects. Summit Projects is a full-service interactive agency offering creative design, strategy, technology, and service to long term-clients.

If you would like to submit information for the January e-newsletter, please contact me at amanda@crgta.org or 541-296-2266!

Amanda

The GTA is dedicated to supporting and promoting high tech companies in the Columbia Gorge region.
